Hi,

After a long and hard thinking I decided that is time to sell my 2016 Pioneer XDJ-RX and his flight case (Magma CTL). It was use at home only and when not in use was keep in the case, it works and looks perfect, no visible scratches and no pops or cracks when touching/moving the knobs. I also have the original box (not in the best shape) and papers that it came with.
the price is.
