Bobby is a castrated mature Yorkshire Terrier who hasn't had the good life hedeserves. The older lady became very unwell, he was rehomed and then Bobby became neglected. He is a loving and sweet guy, just loves being by your side on the settee. He is 10 and will be 11 in April but still an active dog and loves his walks. He is deaf with some sight loss. He has had some teeth out and the rest cleaned. He hates being alone and will need someone who is at home the majority of the time, so no workers please. He will whine at first but he calms down after a while. I have cats and he has been fine with them but gets jealous as dogs do. A standard yorkie size, not teacup. No children. Homes will be checked so I will drive him to meet anyone. The £100 is to ensure good home. He is living with me until I find him a forever home. I am in the DY5.
