The Fisher-Price My Potty Friend, fully working, good condition (has some stickers and residue on the outside but this can easily be cleaned off).

It has been a great potty for both my daughter and son and comes with lots of feature to make it fun for them:

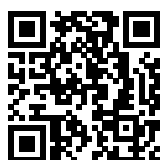

- Adds variety and fun to the potty training process and it looks similar to a real toilet
- It plays encouraging phrases, two full songs and makes sounds to encourage the child. A wetness sensor ensures there is a sound reward upon each success.
- It makes a fun clicking sound when you push down the pretend 'flusher' and there's a toilet paper holder too.
- The handles help toddlers feel secure and it can be removed and used on a regular toilet seat for transition to the toilet.
- It has a lid that opens and closes, the bowl removes for easy clean up, there's a flip-down deflector shield included.
