Hand stretch film are used for hand wrapping of pallets and cargo on it, available in two colors – transparent and black.

The greatest attribute of transparent hand film is extensibility from 150% to 180% and the strength that allows it to be used on heavy and irregular loads.

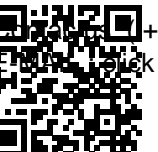

Hand stretch film (black) is 150% to 180% extensively, and has a large covering property. It gives you the opportunity to pack the product in discretion and without revealing it outside, also protects the package from sunlight.

Hand stretch film is a material widely used for transport packages, storing various types of goods, or securing cartons against scattering.

The additional usage found on households as packaging material. Depending on customer needs, the weight of the rolls may be different. The most commonly produced rolls are 1.5kg, 2.0kg, 2.5kg and 3.0kg.

Due to the many uses of the foil and usability, made it popular, and still continues to find new usage on every industry.
