Personal weight loss coach. I combine the latest in dietary weight loss research combined with direct accountability. I offer a full service including dietary advice, meal plans and cooking lessons. I conduct one on one sessions followed by unlimited access to me as your direct accountability partner. The American Society of Training and Development (ASTD) did a study on accountability and found that you have a 65% of completing a goal if you commit to someone. And if you have a specific accountability appointment with a person you've committed, you will increase your chance of success by up to 95%. My method requires no exercise. Just education, application and.
