Hello my friend

We have been organizing trips and exceeding our clients' expectations since 2018 in Kurdistan of Iran. Our guiding principle is delivering quality and reliability, with a few truly unique surprises in the mix in hundreds years ago.

â€œ

Hello brothers and sisters around this planet!

There are some people in this planet that live with a bit bigger hearts and curved stalks, History call us Kurd.

I am not talking with you as a historical theorist but as a member of this gifted society, introduce my life to you.

I was born in 1992 in one of the western villages of Iran, Bayangan. At that time, modernity had not yet reached our village and there was still a story of history in me. The more i grew up, the ground under my feet became weaker, and my soul became soiled by the future, But one day after 25 years of traveling in the future, I returned from my modern soul to 300 years ago where there was peace and love.

â€œ

The idea of TimeTunnel company came from the time that i was trying to have my own world, even if it is small but equal. Most people would say that equality is a good thing. It's easy to say that you believe everyone should be treated equally but harder to put into practice.

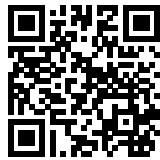

But I set up a company with equal rights, in which the boss does not have any legal difference with others in salaries & rights, so I can guarantee honesty, love, lack of competition and peace for the next
