

# Cervical Cancer Awareness Walk (24 GBP)

Location

West Midlands, West Midlands

<https://www.freeadsz.co.uk/x-572730-z>

Everyone is welcome to join us in walking for an extremely important cause. Cervical Cancer is very preventable with a regular smear test, a test which women often avoid or ignore. We want to use this walk and future walks to alert women to get their check-ups and potentially save their lives. In the future we hope to pressure the Government to change the mandatory screening age from 25 to 18. We look forward to your support.

Details on the route:

We will begin the walk in Cannon Hill Park (Fun Park Area) and make our way to the Millennium Point in Birmingham City Centre. To find us look for the people in pink and holding pink balloons!

## ORGANISER DESCRIPTION

Open Minds Open Souls is a charity focused on the community. We operate in different districts across America and the UK and focus on district-based projects for example tackling homelessness, tackling female poverty due to necessities, and tackling abuse on children. We also offer professional services such as life coaching, diet coaching and counselling to members as a way to holistically help change their lives.
