

Babysitting & childminding of all ages. I am currently a student at the university of Derby and i am trying to build up my portfolio of childminding in order to help with my degree course. I already have a lot of experience, spread over 4 years, around children of all different ages and have grown up looking after children, whether it be family or not, day or night, just the one or the whole clan.

The babysitting could be during the day or evenings, one child or a few, include anything specific you would like me to do with them, just let me know. I also come with all of the essentials including nappies, pants, wipes and anything else that maybe required. If you would like some more information, have any questions or to arrange a time, please don't hesitate to contact me by phone on 07541042039 075410420...(click to reveal full phone number) or email. I have also put in a couple of comments from people I have sat for before:

"They were great with my two. They made them laugh, kept them busy and didn't mind doing all the messy things. The kids seemed shattered when I got home from my work party and fast asleep in their beds. They must be doing something right. Just lovely happenings. Sandra, Chantrelle, #2 and I. I asked them to look after my 4 year old twins for a couple of hours one night when I went to visit my ill grandmother. I came back and Jake was very happy and relaxed. They had made him and Sophie settled before bed. No problems and would definitely use them again").
