

Styrofoam eps polystyrene compactors of GREENMAX APOLO Series (49,999 GBP)

North, South Wirral Location https://www.freeadsz.co.uk/x-572887-z

Focus on polystyrene compacting, Apolo Series is the most popular machine of GREENMAX. With 5 years' accumulative innovation, current APOLO can process most PS foams including EPS, XPS and PSP.

GREENMAX APOLO Series can reduce the volume of Styrofoam waste up to 50:1. So the scattered and big size material can be compressed into tight block. Then the lightweight and scattered EPS will be easily transported. GREENMAX use a more powerful crusher for EPS. Compared to the crusher of EPS, the crusher of EPS has double motor and more sharped blade. But the APOLO machines can also handle Styrofoam recycling effectively.
