Stunning Natural Green Fluorite Crystal

Here we have a beautiful example of natural green fluorite crystal which has been part of our family for years, but as the first has now reluctantly become available for sale as part of a downsizing exercise which we are currently undertaking. Other individual piece such as unique sculptures, crystals and exclusive glass pieces are or will also become available over forthcoming months.

This very unique sizeable piece of natural wonder presents in shades of green, 3 to 4 different shades graduating from bottom to top of the crystal. It's condition is excellent considering it's age (It has and will continue to outlive all of us :-)

Crystal:

Fluorite Crystal

On the physical level, it visualizes and changes the aura of those who keep it close or wear it. It also absorbs stress and negative energies and ground any excess energies. It would make a great gift for a loved one who is a resident because it is also believed to make a wonderful learning aid. It is claimed to improve decision making skills, concentration and self-confidence of those in its vicinity. In addition, this crystal may boost physical and mental coordination and balance, generate positivity, and balance one's energies. Fluorite is associated with the elements of air and water, the zodiac signs of Capricorn and Pisces, and the heart, throat, and third eye chakras, depending on the type (colour) of the specimen in question. It is becoming increasingly popular among New Age enthusiasts and is sometimes paired with

other stones from collections in order to “open the path” for them to become more effective (or amplify their effects). This can work especially well if one’s goal is to attain truth, peace, and spiritual development and wholeness. It is also commonly used during meditation as a channelling aid, as it is believed to enhance connections to faeries, elves, nature spirits and others. If you wish to gain some insight from your past lives, it may assist you in facilitating connection to the Akashic records.

Fluorite is considered to be a useful healing tool by crystal healers. It is said to repair DNA damage and benefit the cells, teeth and bones. Particularly in the form of an elixir, it may effectively fight viruses. It could aid the body while it is battling colds, sinusitis, and the flu, and it is believed to possess the ability to regenerate the mucus membranes and skin. Additionally, it has been used to provide pain relief, treat wounds and ulcers, remove wrinkles and blemishes, assist dental work, alleviate rheumatism, arthritis, and spinal injuries, boost the libido, enhance memory, ease chronic insomnia, and more.

This is a stunning example which is worthy of inspection and deserving of a good home

CASH on collection is preferred due to the weight, size and of course fragility of such a piece (Ipswich, Suffolk)

Alternatively, should you wish to arrange your own courier collection, this could be accommodated, but this needs to be agreed with me beforehand including days convenient for collection, agreed accepted packaging etc. IMPORTANT - ANY/ALL risk of damages is your own responsibility!!
