SILICONE PROTECTIVE COVER FOR APPLE AIRPODS CHARGING CASE

- 360 protection: Protect your AirPods charing case from scratches, the texture and small ridges on the exterior provide extra stability and adds a great level of grip to the super slipper charging case for stopping it from sliding out of your pocket or losing.
- Good snug fit: Perfectly and seamlessly fit with charging case, do not slip off. The case flips open and closed smoothly without hindrance and it protects the hinge.
- Bluetooth button accessible: The setup button is easily accessible and completely covered by the case, doesn't interfere with the opening mechanism of the AirPods.
- Hole designed for lightning cable: The hole is large enough for apple, anker, belkin, popcorn, and cambond lightning cables. So that you don't need to take case off each time you need to charge your Airpods Case.
- Light and durable silicone material: Case with only 10 gram weight, strap 4 gram. Will not get deformed after taking it off and putting it back on multiple times because it is highly flexible and can against bumps.Do not attract dust, feel nice, and no easy to break down. If gets dirty, just rinse, then will become as new.
