Pat Testing Service from S.E.D.

Friendly family run business carrying out Domestic & commercial pat testing aimed at Offices, Hotels, factories, Nursing Homes, Shops and Clubs. We also carry out pat testing for landlords and even in your home if need be.

What we do when testing

The engineer does a formal visual inspection and an electrical test.

The formal visual inspection part checks for the following

- i. Is the appliance in general good condition and suitable for the use.
- i. The appliance Is it working? (Function test)
- i. The lead Is it in good condition and safe?
- i. Is it free from damage and nicks or cuts which could cause injury?
- i. Is the cable fitted properly to the plug?
- i. Does it switch on and off properly to allow you to isolate the power if needed?
- i. Is there any damage to the external parts?
- i. Is the correct fuse fitted? We check the rating.
- i. Are there any signs of internal damage or signs of tampering ?

Safety Test is then carried out

Earth Continuity Testing (Class 1 equipment) Insulation Resistance Testing (Class 1 and 2) Protective

Conductor/Touch Current Testing

We carry out a full visual check and set up the equipment to ensure it is working correctly. The resistance is then measured according to the IAS or PAT, and indicating the outcome for the appliance (just the test result with).
