# NEW Mining Rig 165mhs ethereum, easily upgrade to 12 GPU (280mhs), 5x 1050Ti, 3x

Location   **East Midlands, Nottinghamshire**
https://www.freeadsz.co.uk/x-573612-z

This is a brand new Ethereum mining rig made from the highest quality parts. I've built the unit to sell and it is built with top brand components.

The case is a custom built aluminium framed unit with exceptional stability whilst still being lightweight. It is built to accommodate 12 GPU's and comes with the risers, so it's UPGRADE-ABLE.
For cooling I have installed 2x, massive, 230mm fans which blow directly over the GPU's providing the GPU's with cool air which means the individual GPU fans can spin slowly and still keep the cards extremely cool. I've struggled to break 54 degrees at full load for 48 hour, and it's quiet.
The pictures are of the actual rig you are bidding on. This particular system holds 5x Zotac 1050Ti Dual OC GPU's (15.5mhs), 2x Powercolor RX570 Red Devil's 4Gb (29.5mhs), 1x Powercolor RX570 Red Dragon (29.5mhs) hash rate is exceptional (166+MH/s on Ethereum), but as with all GPU rigs this is suitable for many other alt coins too, such as Zcash, Monero, Vertcoin etc. I doubt the cards in this rig will reach 60C (very cool compared to many more rigs with fewer fans).
Receipts can be provided (inc originals to prove it is new) for most parts and I will supply the original packaging for the major components - Graphics cards and Motherboard. One of the huge benefits to this build is that you can add to the mega hash of this rig very easily by simply buying another GPU.
If you require assistance installing and GPU's or you want a new GPU overclocking or BIOS Modding for extra performance then just give me a call.
5x Zotac 1050Ti Dual OC GPU's (15.5mhs)
2x Powercolor RX570 Red Devil's 4Gb (29.5mhs)
1x Powercolor RX570 Red Dragon (29.5mhs)
1x EVGA PSU 750W
2x Silver Super Flower 750w PSU
1x Biostar 250 B Pro PSU Supporting 12x NVIDIA or AMD GPU's)
1x G4 Celeron Gen 6 Core CPU
1x 4GB Crucial DDR4 RAM
1x 100GB SSD+ 12x PCI Risers (4 Free For Upgrading, you could add 200mhs)
1x Custom Built Aluminium Case for 12 GPU's 2x 23cm High airflow, near quiet fans
1x Power Switch, Reset Switch, HDD Light, Power Light
1x Pre Installed Windows 10 Professional (Full License) - Many features of windows have been tweaked to optimise performance
Each GPU has been individually overclocked / Modded for optimal performance + power use

Auto Booting system (even after powercut)

Auto Startup Mining

Auto Profit Switching setup (always mine the most profitable coin)

2x Passthrough BT Powerline adapters to allow you to install the Rig away from your home/office internet router without long cables. Garages are great as they are naturally well ventilated but this unit will be fine anywhere.

1x 4 Socket Power Strip I will offer assistance for beginners with a mining pool setup, wallet setup and even point you in the right direction to get a crypto wallet with a bank card attached so that you can spend your crypto in McDonalds, PC World, or even on an additional Rig from
