

# Renault Kangoo 2008 (2,750 GBP)

Location **London, London**  
<https://www.freeadsz.co.uk/x-575820-z>

V5 DVLA log book, current MOT, I have owned the vehicle for the past 2 years and I have found it extremely and exceptionally economical to run. On the last service the vehicle had all 4 tyres renewed and I am only selling the vehicle because my wife can now gain excess to our other vehicle. Before I owned the car the damage was recorded as CAT D, since then all of the faults have been corrected to a good standard. I have also recently put in a new battery and upgraded the electric winch as the previous one had low power. Any inspection is welcome and the vehicle is currently located at P.S Autos in Redhill where it has undergone a MOT and service.
