2016 Aprilia Dorsoduro 750 ABS with full service history. Fitted with a GPR light weight end can and adjustable levers. Original parts also supplied as are all books and keys. Features of this bike are as follows: 90 ° V2 engine, four valves, double overhead camshaft, liquid cooling; second generation Tri-Map Ride by Wire technology; electronic fuel injection with state of the art injectors; Mixed gear/chain timing system; ultralight modular trellis/aluminium frame with superlative torsional stiffness; aluminium swingarm with lateral shock absorber; fully adjustable 43mm upside down fork; radial front brake callipers working in conjunction with 320 mm Wave discs; latest generation 2-channel Continental ABS; The electronic engine management on the Dorsoduro 750s engine leads the field in technology and performance. The Dorsoduro features a second generation electronic throttle with Tri-Map selectable triple mapping. Three performance modes, Sport, Touring and Rain, can be selected from a switch on the handlebars (with the throttle closed for safety reasons). The Dorsoduro changes its character radically, depending on what mode you select. Sport mode gives you aggressive instant power; Touring mode gives you a smoother action, better suited to relaxed long distance riding; and Rain mode gives you ultimate safety slippery surfaces. The Tri-Map electronic throttle also means smoother, more consistent power thanks to more accurate and precise throttle control based on parameters including engine speed, gear selection, air flow, throttle position and temperature. Whatever mapping you select, the engine is always ready to deliver the best possible performance in terms of acceleration and rev range, giving you an amazingly satisfying and entertaining ride. Thanks to its advanced electronic and mechanical technology, the Aprilia V twin engine develops 92 HP at 8,750 rpm and a maximum torque of 82 Nm at 4,500rpm. These figures enable the Dorsoduro to compete directly with
