Remote Talk™ Audio Cable For Beats Studio, Beats Executive, Beats Mixr, Beats Solo HD, Beats

Wireless & Beats Pro Made For Apple Mac, IPhone, IPad, IPod

Compatible with:

Beats Studio, Beats Executive, Beats Mixr, Beats Solo HD, Beats Wireless and Beats Pro, for iPhone, iPad and iPod.

(Only works for IOS devices, doesn't work with the Android devices or others)

It has volume control (+,-) remote, built-in microphone so you can use it as a headset to answer and end calls.

You'll enjoy quick-access to music playback control like volume, play/pause and tracking, without having to dig for your iPhone or iPod.

Usage:

Please make sure you connect L jack to your iPhone/iPad/iPod, the other straight jack to your Beats headset/Audio speaker, the wrong direction will make this item not work.

1 click: Pause / Resume music playback or end calls
