Hi, Here we have my 1982 - Suzuki GS850g shaft drive with V5 & owned since 2005, unfortunately I cannot ride it safely anymore as my knees have gone a bit iffy these days so not been ridden for the last 3 years but a little bit of cleaning with a new battery, service and MoT back on the road in days. This would be a good project to restore and show. Because of this selling as spares or repair £1200 ovno but that said it is complete and ready to go starts &.
