Last year I replaced the starter motor, battery and front tyres. The wiper motor was replaced for the MOT which runs until March 19th 2019. I have just had it serviced and has a full history. The six speed gearbox is excellent and gives around 50 - 60 mpg and it drives really well as it is 88bhp. It has a Sony radio with USB for charging or playing music. Electric windows and remote key. I'm reluctantly leaving my Thule heavy duty roof rack on which cost me £200 to fit. Drives brilliantly and has never let me down.
 Any test drive £2300
