The irons:The Lynx Black Cat Graphite Shaft Irons are ideally suited for a mid-high handicap golfer looking for a combination of effortless power, high launch and a super forgiving head design. Lynx have fitted these Black Cat irons with a lightweight graphite shaft that will help you swing the club naturally faster whilst not losing any accuracy. To produce the best possible distance, accuracy and feel a number of technologies have been fused together to make this outstanding affordable set of irons.

Multi-Material Head - A 2-piece cast steel body is fused together with a Maraging hard steel face which reflects the ball off the face fast for incredible distance gains.

Effective Energy Transfer - Makes the face as hot as possible for even more distance as well as providing the necessary forgiveness for game improver golfers.

Twin Slot Technology - Helps remove unwanted weight from behind the face for improved weight distribution to give you enhanced forgiveness across the whole face as well as incredibly fast ball speeds.
