Asaka Integral eSATA HDD external enclosure Integral E-SATA HDD enclosure is a quad interface (dual interface/dual transfer) combo enclosure with speeds up to 3.0 Gbit/s. The Integral is designed for 3.5 inch IDE PATA and SATA HDD drives. eSATA or USB 2.0 transfer is switchable. Dual HDD interfaces in one enclosure brings a greater convenience in data storage management. Sleek aluminium body enables efficient heat dissipation. Stylish blue LED power and access indicator. Easily stackable providing smart use of space. Be smart, be Integral. Features

- o Easy to install
- o Supports 3.5" IDE and SATA drives
- o E-SATA transfer speeds up to 3.0Gb/s
- o E-SATA or USB 2.0 transfer switchable
- o Sleek aluminium case for efficient heat dissipation
- o Easy stack design for smart use of space
- o Blue LED power and access indicator
- o Plug and Play
- o OS Support Win 2000/XP/VISTA/7, Mac OS 9 / OS X
- o Interface eSATA and USB 2.0 (1.1 compatible)
- o USB Data Transfer Rate 480 Mb/s (max)
- o eSATA Data Transfer Rate 3.0 Gb/s (max)
- o Material Aluminium
- o Power & Access Indicator Blue LED
- o DC input 5V , 12V DC (power adapter)
- o Supported OS Windows 2000/XP/Vista/7
- o Mac Os 9 and OS X
- o Plug & Play
- o Dimensions 218 x 123 x 33 mm
- o External, Hi-Speed USB / eSATA-300, 8 cm x 15.1 cm x 1.6 cm, Mac, PC

This aluminum enclosure is compact and light, perfect for the mobile lifestyle. The sleek aluminum body enables efficient heat dissipation. Blue LED power and access indicator gives it a touch of real style. This external enclosure enables you to connect to both legacy and new PC technology. So investment in technology is not lost

**Product Description** Integral E-SATA HDD enclosure is a quad interface dual interface/dual transfer combo enclosure with speeds up to 1.5 Gbit/s;The Integral is designed for 3.5 inch IDE PATA and SATA HDD drives. E-SATA or USB 2.0 transfer is switchable;Dual HDD interfaces in one enclosure brings a greater convenience in data storage management;Sleek aluminium body enables

efficient heat dissipation; Stylish blue LED power and access indicator; Easily stackable providing smart  
 Plug and Play; 10 swappable bays support Win95/98/NT/XP/2000/XP/2003/2006 and Linux  
 Hardwares Description: Aisa Intel® Celeron® 3.5" High Performance Blue LED drive storage module  
 with USB2.0 and E-SATA interface; Supports 1.8-inch IDE and SATA drive; Full start up power  
 requirement of 2A or less; Aluminium case with blue LED access indicator; Plug and Play/  
 swappable; Easily
