Dawes Century SE, 57cm frame, in excellent condition.  
It has a Reynolds 520 frame with Carbon forks and Shimano Tiagra triple chain set.  
The shifters are Sora 9 speed, (the later type) with a paddle lever so you can change gear on the drops.  
The rear mech' is also a Sora.  
This is a really nice Sportif, Audax or light touring bike which I have owned from new. The paint is shiny and virtually unmarked. It has a set of Flinger full length mud guards, which I fitted to replace the originals, which I found to be a bit flimsy and rattly. It also comes with a rear carrier and a Cat Eye wireless.
