What could be better, after a hard days' sightseeing, than relaxing in the early evening warmth, sipping a glass of cool rose wine, as you dine "al fresco". "Les Pieces" is truly the place to recharge those batteries! A rejuvenating and refreshing experience!

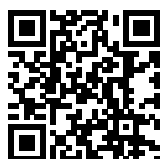

Throughout the Charente, there are many beautiful villages, built in the old Charantaise style, each with its own character and history, often centred around an ancient church. The local area has much to offer, with wonderful markets full of colour and seasonal produce. The region boasts a great range of holiday activities including river swimming, canoeing, mountain-biking, walking, pony-trekking, art and music festivals and restaurants.

Spring comes early to the region and Autumn stays later than in the North. The area boasts one of the best climates in France with the highest number of sunshine hours after the Med.

Cheap flights available to several local airports or drive from ferry ports in 6-8 hours.
