RILEY - THE HYBRID RANGE

HYBRID is a new breed of cue technology.

The butt section of the cue is the new and more dynamic element of the Hybrid range

The Hybrid butt section is a moulded polyurethane which provides a much more controlled feed.

(enhanced traction control), while the softer material means there is less potential for moisture to build up on the hand during play which in effect gives the user more control. No need to keep wiping your hands during play.

Hybrid's unique style gives this new and exciting range dual appeal - Technological advancement with enhanced styling and feel. Feel the!
