Fun and encouraging drum lessons. Due to popular demand lessons slots are now available mid-week and Saturdays. Phone now to get a FREE trial lesson for for 20 minutes before deciding to sign up for the term.

I am a qualified teacher who has been drumming for over 25 years, ten of which I spent as a professional musician touring the UK and Europe. I have been teaching for over 15 years and now specialise in teaching children and young adults. My drum teaching is specifically designed for children and young adults and they can start at any time from the age of 7 upwards. I teach a range of styles and techniques from simple snare drum rudiments and fun patterns to complex four-limbed rhythms. I teach everyone to read drum music as soon as they are ready as I feel this is invaluable. Adult beginner and improvers are also welcome.

The teaching covers: *basic rudiments *styles (rock,pop,funk,blues,jazz) *reading drum music *co-ordination through: * a vast array of my own produced resources *using the most popular drum books available *graded Rock School exams *learning drum parts of famous songs *playing along with current and classic songs.

I believe that learning an instrument, particularly the drums can be a great enhancement to any child's life. Introducing them to discipline, perseverance, creativity and co-ordination are skills they can apply to many other areas.
