This guitar is essentially as new, her colour is Olympic Peral with tortoiseshell pickguard and back plate, trust me when I say... she looks gorgeous!

No scratches, No marks, No dings, No fret ware ... she's been loved and cared for.

I have too many guitars and not enough time to play,

I'm currently reducing my guitar collection, so it's an opportunity to get yourself a great guitar that's had minimal usage and been carefully handled.

The front scratch plate still has cellophane on it but its started to lift, the rear scratch plate still has the original cellophane covering it.

As with all the later deluxe models she comes fitted with the S1 switch within the volume control, which means she as more tonal options by offering extra pickup wiring configurations.

She looks great, plays really nice and sounds amazing.

She's comes with original hard case (as new) and tags etc
