If you like your custom cruisers big & chunky, then this Kawasaki VN900 Classic could be just up your street, literally! The bike is on an 09 plate with only 12,732 miles on the clock from new! It's finished in metallic black with chrome fender extender protectors. As standard the bike comes with running boards with heel shift gear controls, along with a sissy bar with metallic logo in the rear, very proud & prominent. You also have fitted saddle bags along with a radiator guard, and the previous owner added an aftermarket screen to deflect the oncoming wind at higher speed. If you prefer a naked looking front end then that's not a problem as it can be detached from the handle bars. The bike has a good service history with 7 stamps in the book with the last one being completed at 12,159 miles, and the current MOT is valid until October 2018. These bikes ride as you imagine they would, sturdy, holds the road and feels solid and comfortable underneath you. What more could you want? Established in 1980, DC Motorcycles is one of the longest established motorcycle showrooms in the Huddersfield area. In stock are many New & Used bikes, & we offer finance with MotoNovo Close Brothers & Black Horse, so finance can be arranged & settled on your behalf. We also have full workshop facilities available. There is a full stock of clothing, protective equipment & many accessories on our top floor so why not pop in for a coffee and browse our stock in our purpose built.
