Location West Midlands, Staffordshire

https://www.freeadsz.co.uk/x-586124-z

Comes with metal basket and rear bag.

Product Details

Hand Made in Italy

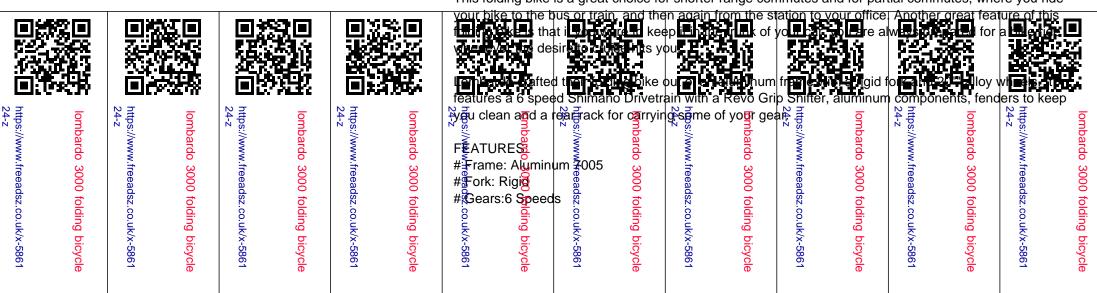

The Folding 3000 takes a bike and compacts it for easier carrying, transporting, and storing. If you have a long commute and can't do it on a bike, the Folding 3000 can be thrown in the car and you can park between work and home.

This practical design doesn't lack functionality with 6 speeds, fenders, and rack.

This not only lets you get in a workout, but it also saves gas, money, and lowers carbon emissions.

The Folding 3000 is ready to be taken on the go. Bring it with you on the train, bus, in the trunk of your car or on an airplane. If you are short on space for a full size bike, the Folding 3000 is a great choice for you too - store it in your closet or in another convenient place, and when you are ready to ride, simply unfold it and off you go!

This folding bike is a great choice for shorter range commutes and for partial commutes, where you ride
