Upminster Containers Limited offer self-storage units for both personal and business use at competitive prices. We specialise in: Container Hire, Removals and Self-Storage, Dry Storage, Container Sales, Container Storage and Container Self-Storage.

Established in 1968 we offer complete container hire, leasing and sales. Not only do we supply self-storage units for individual use to the surrounding areas of Essex, Kent and London, Upminster Containers also work with a range of organisations including national and multi-national companies. We have two levels of self-storage:

Level 1 - You can access your containers between our standard opening hours - Monday to Friday between 9am until 5pm.

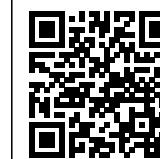

Level 2 - For a £15 deposit you can have gate control access from Monday to Saturday 6am until 8:45pm plus Sundays from 9am until 8:45pm.

Upminster Containers take security seriously and have CCTV cameras on site. Gates are locked at the end of each day. Plus, unlike many storage companies, we supply customers with heavy-duty padlocks and two keys for the duration of the hire period.

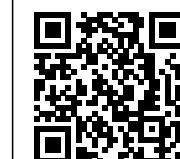

To further add to your piece of mind Upminster Containers employ a security company to oversee the depot outside business hours. There's no charge for this service, customers simply leave a small refundable deposit with us.

So, whether you're selling your home and need household storage or you require a container for commercial use, Upminster Containers can offer you the perfect self-storage solution.

Contact our friendly team now to discuss your storage container.
