Description:

In addition to all the uses a CD Walkman has always had, the ATRAC CD Walkman can play back music on CD-R/CD-RWs (ATRAC CD's) created by the ATRAC3plus/ATRAC3, which is an optimal compression system for music data.

With a PC and the supplied SonicStage SIMPLE BURNER software, ATRAC CD's can be created simply and editing of titles, group settings can be handled with ease. The ATRAC3plus/ATRAC3 system can write as many as 30 CD albums onto 1 CD. (Using the supplied software/one album estimated at 60 minutes using 700Mb CD-R/RW media at 48kbps.

Get the high-tech, full-circle style and the most from digital music with Sony's D-NE715 portable CD player.

The stylish player includes SonicStage CD Simple Burner software so you can take advantage of ATRAC3plus. Sony's proprietary music-compression technology when making custom MP3 CDs on a

CD. It also includes Sony's regular Jog Dial control for easy track navigation, and the dot-matrix display which playback modes for the ultimate in music management and delivery. More than 55 hours of music playback on a single CD or up to 10 hours of ATRAC3plus playback.

ATRAC3plus is a high-quality audio-compression technology that reduces the size of digital audio files while preserving much of a track's original sound quality. Similar in concept to MP3 or Dolby Digital sound formats). With ATRAC3 plus, music can be burned and compressed at 132, 105, 66, 64 or even 48 kbps (kilobits per second) letting you select the right balance between fidelity and storage space (you'll get around 490 songs per disc at 48 kbps).

The player comes bundled with Sony's SonicStage CD Simple Burner software. Compatible with iD3 tagging and most CD burners, this application transfers songs from CDs or MP3 music files from a PC's
