Amazon Green Almera Tino 1.8 SE for sale 87000 miles, MOT November
Part Nissan service history, it has been serviced every year

We are the second owners of the car, we have owned him for just over 9 years and have recently down sized our car as our kids have outgrown us (thankfully)

This is the most reliable car we have ever owned and have only had to replace the usual tyres, brake pads and exhausts in that time. For people in the know these cars are sought after family workhorses, which just go on and on. We still use this car to travel long distances around the country with no problems at all (nice high driving position on the motorway)

There are a few scratches and dents on the body work (bike rack, shopping trolleys and a very friendly moped which liked the look of the drivers side doors, 3 years ago) all minor nothing serious see pictures
Overall still looks in reasonable condition, with no sign of rust that I have seen.

We will be sorry to see it go

Any inspection welcome, thanks for
