

here for sale is a complete car stereo setup  
setup includes as follows

pyle power (pla2378) 2000 watt 2 channel bridgeable mosfet amplifier  
Bass face SPL12.4 12" Inch 30cm 2x20hm DVC Subwoofer 2500w RMS  
complete with box (manufactured)  
Bass face CAP2.1 2 Farad Car Audio Power Cap Capacitor Amp Digital Display 12v  
Sony (cdx dab500u) detachable facia head unit has dab. aux. usb. cd no bluetooth  
52x4 watts output. all over outputs on the back of system for sub etc  
includes cage and facia cover  
also included is a wiring harness/wiring converter to fit most cars not sure of all models no wires have  
been cut  
and complete wiring setup including live wire rcas remote wire etc  
all that you see in pics  
All of the setup is in perfect working order  
been setup to get the best sound in my car  
The setup all sounds amazing together  
plenty of punch  
really bassy  
selling as a whole (not splitting) as need room

genuine reason for selling is upgraded to new car and cant fit system in it to much work  
 this system and call for more and never worry  
 at all so perfect basic and even when  
 price is higher is a little more than usually good price all you see  
 this is a top up you can get right in a new car everything you need is the  
 for anymore information call john on 07787603925 077876039... (click to reveal full phone number) (calls
