If you are starting a new business or want to become self employed and looking for someone to help you avoid costly mistakes, or want to make an existing business more profitable and maximize its growth potential, then you are in the right place.
A consultation with me starts from £100 only. Available 7 days a week.
When starting out in business, one of the first things any entrepreneur needs to do is set up their internal IT systems. But the cost of setting up a business – even with basic software tools – can be pretty steep. We supply to all our clients free of charge, some 45 freemium or low cost software packages, including: word, spreadsheet, database, antivirus, telephony, video calling, project management, accounting, invoicing, survey tool, email marketing tool, graphic design images tool, document management and file storage, and many others. We help you start and/or run your business and save you £hundreds or even £thousands.

Experience and Services:

I am an experienced consultant who has worked on different business projects during the last 21 years. Experience in all aspects of setting up and running a small business.
I am able to assist you in all essential processes of starting a new business, such as business planning, competition analysis and long term sustainability analysis and more.
If you already have a business and you want to grow it or make it more profitable, then will help you walk around existing growth barriers that your business faces. That could be implementing more efficient business systems to simplify everyday processes, creating a solid marketing plan, and cutting unnecessary costs and taking advantage of new technologies.
I have qualifications in Business Management, Psychology, and Counselling.
For a free consultation please give me a call to discuss your requirements.
