Excellent conditioned Xbox 360 with a memory capacity of 250 GB, complete with all leads and games in excellent condition as well. Unit comes with one controller and the games have all got original boxes, however majority have got instruction manuals. The product has been fully tested and the unit works perfectly fine with the remote controller responding well to commands given. The machine reads the games perfectly fine and sound picture quality excellent.

The only thing I am wanting to disclose which is worth bearing in mind is that the HDMI cable is i think getting a little bit tired, Or its my television is having difficulty in wanting to display anything in HDMI (I havent ever used HDMI cable before on my television so might be the television). To get a accurate reading and response from the machine I used my own XBOX 360 ariel which is the other outlet of Red yellow white connectors and it works perfectly fine. I have supplied photos showing the machine working perfectly fine.

Nice little machine and a perfect addition if looking to collect for consoles or wanting to move onto something new. The memory capacity of this unit is 250GB and the games which are included are as follows:-

Airbourne
Gears of war
Gears of war 2
Gears of war 3
Halo reach
Halo wars

Halo 4
Halo 5 GO
Halo 6
I have advertised on multiple sites, games and appliances, operating in the UK, come policy and happy to hold on reserve until +1 hour past agreed time before passing onto the next person in line. I am able to offer delivery if required for a small fee to cover petrol mileage. If there is any question please don't hesitate to get in touch as I am happy to answer any questions that need answering.
Many thanks for)
