SOUND CITY SC 10 b Guitar amplifier (20 GBP)

Location South East, East Sussex

This is a no frills practice amp from the 1980's

Only 1 chanell-Clean but the reviews say its a great sound with an effects pedal.

It is very loud. It crackled a bit when first turned on but once the guitar was plugged in no problems at all.

The back is enclosed so it may well be a bass amp, but sounds good with my Peavey guitar.
