This is an Ibanez GIO GAX07LTD electric guitar.

It is in excellent condition and has the Salamanda motif. It is a deep purple colour and plays really well with 2 humbucker pickups and 3 pickup settings with tone & volume controls. It is from 2007 but that's about all I can find out about it. I acquired it from a school and I don't think they ever used it. The only scratches are on the back gubbins cover, the guitar itself is in perfect condition. The U-tube link is to a GAX11LTD. Same basic thing I think with different.
