4 country farmhouse wooden chairs.

We bought these chairs a few years ago to suit the kitchen we were in at the time. Since moving to a more modern style house these chairs aren't really in keeping anymore.

At the time these cost something like £350 for the set. On amazon you can currently buy them new for £95 per chair including postage. Link below.

Having looked online, second hand they seem to sell for considerably less. I'm asking for £100 for the set of 4.

They are located in Putney SW London so collection would need to be from here.

My number is 077 83 93 45 98.
