Cavachon Puppies – from Health Tested Pedigree Parents

Stunning Non-Moulting and Hypoallergenic F1 Cavachon puppies can be seen with both mum and dad.

These puppies have been home-reared to the highest standard in our loving home with both parents, my children, and other animals - so are very well socialised and handled daily and used to all household noises.

Mum is our beautiful Blenheim King Charles Cavalier. She has been health tested under the current KC/BVA regulations for Heart/Eye, Episodic falling syndrome, Curly Coat/Dry Eye Syndrome. These tests are reassuring for new puppy owners that their puppy will be clear of any hereditary diseases. While dad is a pure snowy white pedigree Bichon Frise with no tear stains.

Cavachons make an ideal pet, not just for people who love them for their looks and wonderful temperament, but they are ideal for the allergy sufferer and house-proud.

February 2018 and ready to leave on the 1st April 2018.
 We will have us going to a regular vet for vet checks, vaccinations, date and
 chipped, together with a lifetime of support.

Each puppy will come with their own blanket with mum's and litter mate's scent and a bag of James
 Well beloved puppy food, which they have been weaned on.

On viewing the puppies and choosing your own, I will require £100 deposit to secure your puppy. The balance will be paid upon collection when the puppy is ready for their forever.
