Eavestaff miniroyal piano, This is a really lovely example of a great British made piano. It has 85 keys and two pedals and has a well-balanced tone. It is overstrung and under damped and the Shwander action is really crisp and responsive. The quality and tone of this piano would suit most players. It would also suit a family with not a lot of space as the case is quite compact. W 140cm D 52cm H 99cm (approx).
