

iphone 6s (cracked screen) (95 GBP)

Location **Scotland, Angus**
<https://www.freeadsz.co.uk/x-593167-z>

iPhone 6s 32GB silver unlocked this phone is only months old was bought brand new at end of November 2017 so only 5 months old but unfortunately I dropped it a few day sago resulting in some cracks to the screen a black mark on the screen and several lines I have taken it to several phone shops and they all say a new screen will fix it and it will be good as new as the phone is only 5 months old the battery and everything is perfect selling for £95 (even with cost of screen fixing its still cheaper then what others are selling for and mines is only 5 months old) most places are charging 40/50 the replace screen.

please note the screen 100% needs fixed as you wont want to use it with the screen like this its very hard to use with the screen so damaged but easy enough job most phone shop will have it done the same day

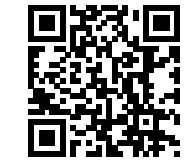

I will also swap for a iPhone 5c if anyone has one but must be unlocked or locked to three

once screen has been fixed you will have a good as new 5 month old phone

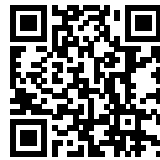

can meet somewhere in Dundee city centre today
