I'm looking for two bratz tv/dvd players. There are two designs that I'm interested in. The plugged in tv and dvd combo (2005) and the rounder design from around 2006. They're in the photos above.

I'm looking for these to be delivered with secure and tracked packaging to my address in London. I'm willing to pay for the delivery and you can use royal mail or ups to get a quote for the delivery price. I'd prefer to pay via paypal or another secure platform that protects us both. Another option is to agree on a time to list the item on another selling platform, like ebay, with a title stating that you're holding it and I can send a confirmation that I bought it. This can be discussed in an email.

If you have these items, you can email me directly at either coteloadelina@gmail.com or cotelor17@gmail.com If you would prefer to contact via whatsapp or messaging, I'll send my number after confirming you are in fact selling the item. I would like some kind of proof that you actually have the item and that it's working. For example, a video (with the sound on) with the date written on a piece of paper, circling the tv and showing that it's working by turning it on and inserting a dvd.

I've seen two posted on this site around a week ago. One an angular design with star indentations on the front and star panels, going for £25. Another is the rounder design with the coloured bratz decals and stereo bottom for £10. They're both in Cambridgeshire. I've been trying to message the poster, especially as they have relisted the item, but have not been able to contact them. I think it's because they have not posted with a profile and they have not left any contact information to directly contact them. If

you are one of those sellers, please contact me to let me know if delivery is an available option
