The Softaken MSG to vCard Converter is High-end utility which helps users to convert Outlook MSG files to vCard file format. This app makes it easy to access your contacts on iOS, Android, Gmail and Lotus Notes. This software makes it easy to move single MSG files or whole folders with just a few clicks because of its friendly interface. It works perfectly with all releases of Outlook 2019, 2016, 2013 and previous, and Windows XP, 8/8.1, and 10/11. You do not need to install Outlook to use software and it keeps attachments, metadata and contact information safe to make sure the data is correct. The converting process is faster and more accurate than doing it by manual and you can try it out for free.
