OSTtoPSTAPP EML to NSF Converter is an advanced software that easily converts EML emails into NSF format. This software can effectively convert EML emails into NSF format. This platform supports all EML-based clients, such as Thunderbird, Windows Live Mail, Apple Mail, and Outlook Express. This tool provides a smooth and secure conversion with no loss of data. This software ensures that all attributes, such as sender/receiver information, attachments, and original email formatting, are maintained during the conversion process. It supports bulk conversion, enabling users to convert multiple EML files effortlessly, which saves users' valuable time. This software also offers an effective feature of selective conversion, which helps users to filter emails based on data like date, subject, or sender. This tool has an excellent built-in preview feature, so users can check emails before final conversion.
