Deleting all duplicate MSG files without any Software with SameTools MSG Duplicates Remover. This application remove all duplicate MSG files like messages, attachments, etc. without losing anything. This is stand-alone software that does not require MS Outlook to be installed on your computer. The software works with all Windows versions, including 11, 10, 8.1, 8, and 7. Users don't need technical skills to use this software. In just a few clicks, users can upload their MSG files to the panel, click scan, and let the software remove all duplicate MSG files from their mailbox.
